Highlights

Bass Beat vents
Bass beat vents allow air movement for better sound with a deep rich bass.

Neodymium magnet
Neodynium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

24k Gold-plated plug
Rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.

Super-soft ear cushions
The ear cushions are very soft, and enclose the speakers around the ears to create great sound. With very little pressure on the ears, you can use the headphones comfortably for long periods.

Flexible rubber earhooks
The rubber earhooks provide a non-slip grip for an extra secure and comfortable fit, ensuring that the headphones remain in place for hours of comfort. Ideal for active use.

Fully adjustable
The adjustable hinge and earhook creates added security and comfort, by adapting to the shape and size of your ear. This helps make a perfect fit that is highly comfortable and also keeps the headphones in place.

Tangle-free cable
The tangle-free cable helps you save time since it is less likely to become tangled. This is because it is made from a material that is more rigid material yet maintains its flexibility.

Asymmetric cabling system
This simple yet highly effective solution to cable tangling works effectivly by enabling you to hang the cable behind your neck instead of under your chin.

Strain relief
A soft, flexible sleeve protects the cable connection from damage that otherwise would occur from repeated bending, extending the product life.

1.2m cable
The ideal cable length to give you the freedom to put your audio device where you want.
